Kimberly Paola García Sabillón - Senior Full Stack Software Engineer

Senior Full-Stack Engineer with 5 years of experience building production-grade applications for U.S. companies. Specialized in React, Next.js, TypeScript, and Node.js, with hands-on experience in backend development, software architecture, and cloud deployments using AWS.

EXPERIENCE

Knomee – *Senior Full Stack Developer* **2025 – Present**

- Own end-to-end development of a SOC2-compliant SaaS platform serving wealth management firms, spanning frontend features, backend services, authentication, APIs, and cloud deployments (Next.js, NestJS, Clerk, Vercel, and Render).
- Established architecture guidelines, enforced best practices and conducted code reviews to ensure quality and consistency across the codebase.

Peer Group Tools – *Full Stack Engineer* **2025 – 2026**

- Developed features for a collaborative SaaS platform for executive peer groups, incorporating client feedback into product improvements and contributing to a full UI redesign (Angular, .NET, GCP).

Code Éxitos – *Full Stack Developer* **2023 – 2025**

- Led the migration of a legacy time-tracking web app for a U.S. client, scaling it from 100K to 1M (.NET, AWS and Vue.js).
- Delivered core features for a sales automation platform built for a major global automotive enterprise, improving quoting, customer data workflows and digital-signature operations at scale (Vue.js, AWS, NestJS).
- Engineered a dynamic, form-driven data-collection platform, delivering secure submission flows and scalable cloud integrations (Next.js, NestJS, AWS).
- Conducted code reviews and implemented development guidelines to raise code quality and system maintainability.

HanesBrands – *Software Developer* **2021 – 2023**

- Delivered a logistics management system for ship-schedule coordination and container-tracking operations, streamlining workflows using modular frontend architecture, Express.js and PostgreSQL.
- Reduced development overhead by introducing reusable components and documented APIs across the team.
